Truck Terrain Cranes

Designed for
amazing job-site
maneuverability

The HTT Truck Terrain Crane line gives you outstanding mobility and is packed with HTC-proven innovations!

Steerable rear axles, in conjunction with super single tires, make the HTT line even harder to beat on the job-site. And NO changes to the on-outrigger capacity charts.

- Drive and steer capabilities for the rear axles
- Four steering modes of:
 - Independent front
 - Independent rear
 - Combination
 - Crab
- Rear axles self-center and lock in the straight ahead position for high speed travel. Turning radius under 29 ft (8.8m) at the edge of the tire
- 445/65R22.5 tires front and rear that are interchangeable
- Only one spare rim and tire combination is needed
- Transverse (cross-axle) differential locks that greatly improve traction on unimproved job-site conditions

Steering modes
